HARMONY DIES is a underground cult death metal band from Berlin & celebrate their Death Metal sickness since 1992. They started at that time, to become one of the most brutal bands in Germany.

The first two demos were released in 1992 and in 1993, "Living Corpses" and "Slope". One year later the split-single with the fantastic **KRISIUN** from Brasil appeared on Morbid Rec. Following the demos "Third Output Of Incompetence" in 1994 & "Promo '95". The first self-produced MCD "Slaughtered" was recorded in 1996.

It took more than 2 years until the first full length CD "Don't Trust" was released via Ars Metalli.

At the millenium **HARMONY DIES** entered the Soundforge Studio once again to record "I'll Be Your Master" with the help of Andreas Hilbert from **GOLEM**.

The following year saw the appearance of the live video "Dying Live" and in 2002 followed the "Hybrid Manifestation" 7"-single with the guys from **SPAWN** on Poserslaughter Rec..

For 2003 they had recorded the album called "Impact", brought to you by german cult label Morbid Rec. and after this 5 tracks take place on a split CD with **FLESHART** from Greece.

HARMONY DIES played various shows with bands like **VA-DER**, **DEEDS OF FLESH**, **IN FLAMES**, **DYING FETUS**, **DERANGED**, **KRISIUN**, **THE HAUNTED**, **INCANTATION**, **MAYHEM** and lots of others.

The band's line-up changed several times, and after a long break they joined together in 2012 to spark some more brutal stuff.

For their amazing new recordings, the five Berlin death metal maniacs decided to respond for a close collaboration with the also in eastern Germany domiciled label, Defying Danger Records.

"Indecent Paths Of A Ramifying Darkness" was released on March 3rd 2016 in a handnumbered Digisleeve and will be a part of the D.D.R. Tapeseries soon!
